

SeniorDiscounts Adds New Value to its Car Rental Discounts

Chicago, January 22, 2007 – SeniorDiscounts, a company and web site that provides information on discounts available to the over 50 marketplace has just added three new discounts programs to its list of car rental discounts.

SeniorDiscounts currently has 14 different rental car companies listed on its web site. All of these offer some form of discount for older travelers. Three of the 14 are offering special discounts to members of SeniorDiscounts.

Alamo car rentals now offer members of the SeniorDiscounts program unlimited mileage and year-round discounts of up to 10%.

Budget and Avis also offer discounts of up to 10% off their lowest rates to members of SeniorDiscounts.

To receive these discounts, members simply quote a special code when calling the reservation departments or they can visit any of the company web sites and enter the code when booking a reservation online.

“We are very excited about providing more savings to our members,” David Smidt, President of SeniorDiscounts, says. “We hope to attract more companies to follow suit.”
